His pay will be given to him in person by yourself or one of our con-

fidential men and no one should be taken into his confidence about this. "I would also suggest that you show Anse Hatfield a little attention and let him know that we appreciate the attitude which he has taken in these matters.

(Anse Hatfield, relative of Sid Hatfield, was reported to have symathies differing from those of the Chief of Police. He was later shot nd killed as he sat in front of the hotel that he owned in Matewan.)

"Please do not forget our conversation on the subject of Chambers. However, I would suggest that you have a further talk with Mr. Bausewine (George Bausewine Jr. is secretary of the Williamson Coal Operators' Association, which includes the operators of Mingo County) before you approach him, and have a thorough understanding with the committee, because there is no use going nto this matter at all unless you know where you are.

"At our conference in Cincinnati few days ago it was suggested that we keep after Blankinship (the Sheriff of Mingo County), as they seem to think he might be worked yet; lowever, I am of the opinion the other parties have him under their control. • • • (Then follows a paragraph emphasizing the importance of "getting a square deal from

"I do not think it would be a bad dea to have an article written setting forth the views of the operators n connection with these evictions. etc., and the precedent which has been established, and go on and analyze it and show that they had to take this action because these felows (miners occupying companyowned houses) would hold the houses ndefinitely and occupy them for the purpose of annoying the company and preventing their mining coal; that the houses were a part of their

mining equipment, etc. "Furthermore, that if this is not one, the public is going to get a wrong conception of what has been done and the object of doing it, because these things are being talked roughout the country, on the trains nd public places, etc.

'Arrange with Cunningham to disontinue the room at Williamson." The list of persons who are apparently private detectives furnished by the Baldwin-Felts Detective Agency to operators contains 12 ber, by which he is apparently known. Some are described as having been "in our service" only a few months, others many years. They are spoken of as "working in the min canvassing the field" or stationed at various points about the county. Th ames of several coal companies

Ed Chambers, a resident of Matewan, swears in an affidavit that he saw Hatfield take these papers off Felts' body 20 minutes after Felts was killed.

The Prosecuting Attorney of Mingo County was said, while I was there, to have copies of these notes in his possession. I went to him. He said that papers reported to have been taken from Felts' body were locked in his safe at that moment. He refused to let me see them or to say anything in regard to their contents or authenticity. When he

learned that what purported to be copies of these notes were in my possession he expressed surprise. I do not vouch for the genuine-ness of these documents. It is conceivable that they were planted on Albert Felts' body. The witnesses to their discovery are chiefly men who were involved in the shooting at Matewan or who are under indict-

ent as a result of that shooting. The documents fit with much pre-ision, however, into the West Virginia industrial conflict. They give a picture of events and relationships that loom prominently in the foreground of that struggle. Even if heir authenticity should not be established at the trial, they are of valid interest to the public. They show the kind of thing that goes on where the bitter industrial conflict occurs and they are a vivid illustra-

tion of the raw material on which the state of mind of the miners They Supply Detectives. It is, of course, well known and not enied that the Baldwin-Felts Detective Agency supplies individual operators and associations of oper-

### HOWAT AND 5 AIDS GET YEAR FOR CONTEMPT

Kansas Miners' Leader Convicted of Violating Injunction in Calling Strike.

By the Associated Press.
PITTSBURG, Kan., Feb. 17.— Alexander Howat, president of the Kansas district of the United Mine Workers of America, was found guilty of contempt of court and sentenced to a year in jail by Judge Curran of the Crawford County District Court yesterday afternoon.

With Howat were found guilty his five codefendants in the contempt proceedings, all officers of the Kansas union. They are August Dorchy, vice president: Willard Titus, John Fleming, James McIlwrath and Hearl Maxwell, executive board members.
All were sentended to a year in jail and all, including Howat, ordered

and all, including Howar, to pay the costs.

The calling of a strike in two mines, in violation of injunction, caused the contempt pi ceedings. The strike resulted from a controversy between the union and operators over the age of a young miner parred Mishmash. The question of named Mishmash. The question of his ago affected his rate of pay. The injunction was issued las

September by Judge Curran, forbidding union officials from calling a strike. It was sought by the State in the enforcement of the Industrial Court law. Howat and three other union officers were sent to jail 'ast spring when they refused to obey the order of Judge Curran to ap. pear before the Industrial Court and testify. This case is on appeal. Judge Curran said the strike was

called for the purpose of evading the Industrial Court law. Howat and the other defendants, the Judge said, had violated the injunction.

Judge Curran overruled a motion
for a new trial. The defense filed no-

tice of an appeal.

Mrs. Howat was in the courtroom when her husband was sentenced. Howat joked with officers and She was in tears. friends after he had been sentenced.
"How near is that new jall to completion?" he asked of Sheriff Milt

Howat and Dorchy were in jail less than a week last spring. With them Thomas Harvey, secretarytreasurer, and R. B. Foster, a district auditor. They were first put in the old jall at Girard. The first day they were there a crowd of Howat's friends appeared and G. C. Webb, hen Sheriff, allowed Howat to make nen Sheriii, allowed Howar to make hich he called Gov. Allen a "skunk of a Governor." They were removed Harvey Dorchy to Iola and Howat and Foster to Ottawa. They gave bonds a few days later and the case was appealed to the Supreme Court. Sheriff Webb resigned when an ouster suit was filed against him.

Bonds were fixed at \$2000 each and the convicted men were released on their own recognizance.

The sentences imposed will have no effect on the strike called by the executive board and the strike order will remain in force until a settle-ment is reached, Howat said. William Dalrymple, a member of the national board of the United Mine Workers of America, is in Pitts-

Joe Bierbrodt, George Chipps and W. L. Hasson, officers of a Crowe-burg local union, tried for contempt Judge Curran. The local union o cers were charged by the State with fining two union members who ap-pealed a case to the industrial court. The union has a provision for a fine in such cases. Judge Curran held it was not proved that the two union nembers had been fined.

PARIS, Feb. 17.—Mrne. Louise
Thulier, a Belgian school teacher,
who was awarded the insignia of the Legion of Honor and the War Cross during the great war, has chosen suicide, rather than face exposure as a spy and a betrayer of strictic friends, it is declared by today's newspapers. The woman most stirring tragedies of the war. swallowed rat poison at her home in the village of Wiherles, near Mons, yesterday, when called to appear before a Magistrate.

a Magistrate.

Mme. Thulier was associated with Edith Cavell, the English nurse who was executed by the Germans in Brussels on Oct. 15, 1915, and with Countess Joahenna de Beville, who was doomed to die by the Ger-mans, but whose sentence was com-muted through the intervention of President Wilson. She, herself, was taken prisoner by the Germans and was sentenced to death, but Kins Alfonso of Spain made a plea in her behalf and she was reprieved.

During an investigation of espion age operations at Mons, evidence was found, it is declared by news-papers here, that Mme. Thulier had betrayed a number of companions, one of whom was Philip Baucq, an architect, who were executed the

day Miss Cavell faced the German firing squad. The Magistrate summoned the woman to appear before owed poison rather than obey. CITIZEN TELLS POLICE HE

to him; the women themselves declared they would get a job for him and pay a month's house rent, and the couple kissed, made up and went

to lunch together. Those were the chief elements in the "jury's" decision, which was somewhat in contrast to the masculine solution proposed by Justice Werremeyer, namely, to sentence the man to a year's imprisonment.

Sutton, in his own behalf, testified that he had had hard luck, having lost his job; that he only made \$28 a week, and that it was a hard pull, at best. His wife quarreled at him when he was idle, he said, and he decided to chuck up the whole business in despair.

Judge Confers With Women. So far, the case was such a one as may be heard in any Justice court at most any time. But here the sim-ilarity ended. The Justice invited his women advisors to retire and

confer with him. He suggested a year's imprisonment for Sutton.
"No, don't do that," Mrs. C. C. Woiff put in. "Then his wife and child certainly would be deprived of his support. He is not a criminal, but a year in jail might make him

"It looks to me like the sensible thing for us to do is to find a job for him," declared Mrs. Henry W. Leyhe, another of the advisors. "It seems that the difficulties between these two people are largely due to too many parents-in-law on both sides, and to lack of funds."

Woman Deputy's Proposal. Mrs. Sue Barge, a Deputy Sheriff and probation officer, supplied the precise remedy. "Sentence him to six months, and stay the sentence on his promise to provide for his family," she suggested. "I'll keep an eye on them and see that he does.' Mrs. Julius C. Strong, the fourth

advisor, concurred in these opinions.

Justice Werremeyer said he bowed to the superior wisdom of his col leagues, and returned to the courtoom to announce the decision Then the four women took the ouple into an anteroom and sat hem down, side by side, on a bench, Mrs. Leyhe took the baby and walked

around the room to keep it quiet, while she and her associates gave the couple a talking.
"Why, I believe you are in love with each other," Mrs. Wolff accused, and Sutton and his wife blushed. "Sure you are," she con-tinued, with determination. "Now I want you to kiss and make up." They obeyed like two people who

had been waiting a long time for a The entire incident was the result of the decision of Justice Werremeyer to permit women to sit in his court, in order to give them training for jury service, which the women of Missouri expect to obtain soon. JEFFERSON CITY, Feb. 17 .-Republican Senators who, for month, have opposed Senator Bowker's bill decreasing the State income tax and the corporation franchise tax, changed their position today when Bowker called up his bills for engrossment, and both were engrossed without opposition.

Gov. Hyde, in his special message ecommended some reduction in the income tax, and also the definition of surplus in the corporation fran-chise tax, but the Bowker pills carry reductions greater than the Gov

arnor recommended.

The income tax bill, as it went to engrossment and will come up for final passage, reduces the tax from 11/2 per cent to 1 per cent and nges the exemption from \$1000 to \$1500 for single persons, from \$2000 to \$3000 for heads of families and from \$200 to \$400 for each de-

News Brought Back From St. 6 Augustine Perturbs Some Senators.

the Washington Correspondent of the Post-Dispatch.
WASHINGTON, Feb. 17.—Anti-Hooverites in the Senate are perturbed over news brought back from St. Augustine by recent visitors to the President-elect that Herbert SPECIAL LENTEN DISHES Hoover has not yet been completely N DAYS OF ABSTINENCE erased from the state of Cabinet pos-

Since Harding began his "best mind" conferences, the former Food Administrator has been pushed into and pushed out of the Cabinet half a dozen or more times. Just before the party of the President-elect left Marion for St. Augustine, it looked as if the die had been finally cast against Hoover. Now it appears that he is up for consideration again, with a chance of being appointed Secretary of Commerce. At any rate, the opponents of Hoover are

orried over the prospect. Opposition Largely Political. The fight against Hoover has been nore intense than that against any other man mentioned for a Cabinet place. The opposition is largely political. Heading it is Senator Johnson of California, with Senator Borah of Idaho as principal aid. Johnson is said to have sent word to Harding that the appointment of Hoover would mean a fight right at the beginning of the new adminis-tration. Johnson is apparently 'standing pat" on that announcement, trusting to Harding's wellknown desire for harmony to block he efforts of Hoover's friends. Nomnally, Hoover is a resident of Caliornia, where he fought Johnson in he Republican primaries. The President-elect would defy political orthodoxy by appointing a Californian who is persona non grata to the Republican Senator from California. Political orthodoxy is one of the cardinal characteristics of the incoming President; yet, if he follows out his own personal inclinations, he

will appoint Hoover. To Harding's political intimates of the Senate, his bend toward Hoover is one of the trangest developments of the whole Cabinet situation. Hoover doesn't talk the language of politics. Why Harding should give him a thought s beyond them. The reason is simply that Harding has a tremendous dmiration for the executive ability ountry would applaud his selection. Appointment of Hoover would go part way toward redemption of the pledge to give the country a "big" Cabinet; it would help to balance somewhat the purely political ap-pointments, which threaten now, with Weeks, Daugherty and Hays apparently assured of places, to make the Cabinet top heavy with men known chiefly the campaign

nanagers. The President-elect has been told that a fight will certainly be started by Johnson some time or other, and with the Californian now as later. o the matter stands today, according to information from Florida perolating into the Senate cloakrooms. Hooser isn't named, Senator Johnson can hang a scalp at his belt and Senator Borah can hang a second scalp, the first representing the victory that Borah won over the Washington friends of Harding who re planning a "jazz" inaugural

Reed May Take Some Credit. Senator Reed, though of the other arty, may also take some credit to imself; for Reed was the first to rush into the breach with an antiover speech when news dispatches from Marion early last month alarmed the irreconcilables with the suggestion that Hoover had a chance

for a Cabinet post.

If Harding decides to name Hoover, party regularity will com-pel lip approval from most of Hoover's senatorial critics, but Senaors Johnson, Borah and Reed, if hey run true to form, will contribute greater gayety to the inauguration period with their oratorical fireworks than could possibly have been produced by the late lamented plans of the McLean committee.

KENTUCKY GIRLS ARE TAUGHT PRINCIPLES OF HOME MAKING

FRANKFORT, Ky., Feb. 17.reaching of home-making in the chools of Kentucky is rapidly gaining a foothold, according to Miss Betsey Madison, State Supervisor of Home Economics Education.
"The teaching of 'home-making,'"

said Miss Madison, "is rapidly taking the form of complete teaching of the art. Instead of a little sewing here and a little cooking there, the high schools of the State are taking an interest in the work and really are trying. What we want to do is to teach the girls the things that they use in heir homes.

Recently I was at Hindman, Knott County, and it was wash day. The girls at the Hindman school were out with zinc tubs and wash boards. For that is the only thing they have for such work and they are taught that way. It is this sort of home conomics we want taught."

# IN CONTEMPT SUIT AGAINST TERMINAL

Case Involves Controversy Between Eastern and Western Lines Over Apportionment of Charges.

Hearing of testimony in the contempt proceedings brought by four Western railroads against the Terminal Railroad Association, involving a controversy between the Western and Eastern lines over the apportionment of terminal charges on through freight crossing the river here, was resumed today before Byron F. Babbitt, as special master, in room 1135, Railway Exchange Build-

Charles B. Sudborough, traffic manager of the Pennsylvania Lina, was recalled today, having been a witness yesterday. It was expected hat the hearing would end by this evening. Briefs will later be submitted by lawyers for the Eastern and Western lines to Judges Sanborn, Hook and Stone, who are hear-ing the case in the United States

The Western lines which instituted the proceeding are the Frisco, Missouri Pacific, Missouri, Kansas & Texas and Rock Island. They are the distinctively Western lines here although the Chicage & Alton, Wabash and Burlington have lines west as well as east of the river.

Contention of Western Lines. The Western lines declare that under the existing arrangement, they are required to pay the river-crossing charges on all through freight, in whichever direction it is boundthat on freight going east they must Terminal Association's charges to East St. Louis, and that on freight coming west they must pay the charges from East St. Louis across the river. The controversy applies only to through freight passing through St. Louis, and not to hipments originating here or

destined to this city. The western lines have charged that the Terminal Association, by its methods of assessing the river charges in both directions against the western lines, has violated the decree of the United States Supreme Court, which forbade it to act as a carrier, and which required that it limit its activities to serving as an agent for the railroad lines.

decree has been violated as charged. The eastern lines have also stated hat, while it is true that the river charges both ways are assessed against the western lines, it is true that the division through freight rates has been made on a basis which fixes East St. Louis as the dividing line, and which makes an allowance to he western lines to cover the cost of the river transfer. Therefore, the eastern lines contend, the western ines, while they have to pay the river

The Terminal Association and the

eastern lines have denied that the

charge, get it back from the shipper. Changes in Method Proposed. The western lines have proposed that the eastern lines be required to pay the river charges on westbound ugh freight, and that the western lines shall continue to pay the river charge on eastbound through freight, and have declared that this would neet the requirements of the Supreme Court's decree. As an alternative, they have proposed that a 50-50 division be made between the eastern and western lines, on the river charges on all freight. The eastern lines have replied that either of the proposed arrange-

ments would decrease their revenues, and increase the revenues of the western lines, and that if this is to be done, the through tariffs should be readjusted. The basis of division in these tariffs, it is stated, has been the same since 1877. Such a tariff readjustment, the eastern lines con-tend, should be a matter for the Inerstate Commerce Commission In the hearing before the Judges ast month it was stated that the ntroversy was one between the two sets of railroads as to division of charges, and that it would not affect the shipper of through freight, whichever way it might be decide 1, as the through rate would remain the same.

One of the attorneys for the Western roads replied that they wished the Eastern lines to pay their share of the river Stith, traffic manager of the Tercharges, and suggested that the minal Association, and W. Lears and Boehm explained that negroes had been welcomed to the or-ganization meetings of the club, that two had attended the first meeting and that no further interest was shown. Hereafter large conventions which meet in St. Louis will have to hire a hall, as a result of a new policy adopted by St. Louis Convention Publicity and Tourist Bureau, which has decided that a 150 per cent advance is the rental charged for the Colluseum makes the cost of con-vention housing too high for the bu-

It has been the custom for the bureau to pay the rental and furnish the Collseum free to conventions meeting there, but Frederick H. Rein, field secretary of the bureau, yesterday said this could no longer be done, though contracts already made will be carried out.

Until the Coliseum changed hands Dec. 29, 1919, the rental charged for it was \$1000 a week, Rein said, but the present charge is \$2500 a week. "The Coliseum is the only place in St. Louis where large conventions can be held," said Rein. "Its owne taken care of in smaller hall and in hotel meeting rooms. We shall continue to provide meeting places for such conventions, but in future we will not pay the present Collseum rental price. In making new convention contracts we are

#### SUIT ALLEGES CONSPIRACY TO KEEP "HIPPODROME" IDLE

Petition Declares Place Is Kept Closed to Benefit Opera House, and Is Falling Into Decay.

Suit for a receiver for the Hippodrome Theater property on the west side of Sixth street, between Market and Walnut streets, was filed yesterday by interests holding a lease on part of the ground on which the building stands. It is alleged that a conspiracy exists with certain theatrical interests to keep the theater idle. The Hippodrome has been idle for five years, and, according to the petition, the property has been allowed to fall into decay. Through eaky roofs the interior has been greatly damaged, it is alleged. Plaintiffs are John S. Leahy, Walter H. Saunders and Alfred Kehde, trustees, who have a lease on one of the three lots on which the theater stands. Defendants are Frank P. Tate, Charles Cella and Joseph Martin, who comprise the Vaude-ville Theater Co., Julius Gates, Clara P. Bobb and the Orpheum Circuit o. It is alleged that the two deendant theater companies conspired to keep the Hippodrome closed for the benefit of the Grand Opera House on Market street, a short distance away.

#### NEGRO TAKEN FROM GEORGIA JAIL AND BURNED AT STAKE

Mob of 5000 Persons Storms Courthouse to Get Man Charged With

Killing White Woman.
by the Associated Press.
ATHENS, Ga., Feb. 17.—A mob of

5000 persons last night stormed the Clark County Jail and after foreibly taking John Lee Eberhardt, a negro, charged with the murder of Mrs. Walter Lee of Oconee County, from the jail, burned him at the stake. The mob got the negro from the county jail after leaders had climbed an elevator shaft to the top floor of the county courthouse, where the jail is, and burned their way into Eberhardt's cell by playing a blow-torch on the locks. He was taken by the mob to a field directly opposite the Lee home and burned at the stake, shortly before mid-

night. He died in 20 minutes Mrs. Lee was killed yesterday after she had been attacked on entering a barn on the Lee farm. Eberhardt was arrested about noon at a neigh-boring farm. Sheriff Jackson tried to protect the jail, but the mob start-ed to grow in the early afternoon, and by nightfall thousands of persons from Clarke, Oconee and adaining countles had gathered

'Anti-Craps Shooting" Bill and One to Increase St. Louis Probation Officer's Salary Included.

By a Staff Correspondent of the Post-Dispatch.

JEFFERSON CITY, Feb. 17 .-Among the 26 bills passed by the House yesterday was the Davidson-Bittner bill to increase the salaries of the probation officer and his deputies in St. Louis \$500 a year. The bill would make the maximum which may be paid the probation officer \$4000 and the maximum for the deputies \$3000.

It was necessary for Representative Davidson, who was handling the measure, to swallow a "defi" which the day before he had hurled at the members from rural districts, to get a favorable vote. During a speech Tuesday Davidson had told the rural members that the representatives from the cities would take care of their bills and represent their constituents without aid from their ountry brethren.

Representative Elmer of Dent County yesterday reminded the country members of these words, just be-fore the roll call, whereupon Davidson hastened to "apologize if I said anything that reflected on the coun-try members, though I thought I was paying them a compliment." There rere only four votes against the bill. Another of the bills passed was the Kansas City police salary increase measure, which will advance probapatrolmen to \$1800, the Chief to \$6000 and other members of the force in proportion. Action on the st. Louis bill, carrying items to to-

taling about \$385,000 a year, is expected in the House this week. The Botts "anti-craps shooting" bill, which makes the possession sale or exposure for sale of dice a misdemeanor, was passed by the House, 84 to 49, with all of the St. Louis members, except two, one of whom was Representative Moore. the negro member, voting in the negative. The bill carries an emergency clause, stating that "the increasing prevalence of the vice of gambling by the use of dice in what is known as the game of 'craps, nstitutes an emergency."

Two game regulation measures were enacted by the House. One of them would shorten the open season on deer from two months to one ounty paid on coyotes and wolves and from \$3 to \$10 for those of pups. Representative Tatum's bill to require the teaching of a course in thrift in the public schools also received a favorable vote. All these measures now await ac-ion by the Senate.

### BOXER DIED FROM EXERTION

Opponent of Harry Hamilton Released by Coroner's Jury. BROOKFIELD, Mo., Feb. 17 .-Overexertion during a bout here Tuesday night caused the death of Harry Hamilton, a local lightweight boxer, a Coroner's jury found yester-

Hamilton collapsed in his corner after he had been knocked out near the end of the eighth round by Frankle Dean of Kansas City. He became unconscious and died at his home early yesterday. Dean was not held in connection with the case. The verdict of the Coroner's jury did not hold that the knockout had any bearing on the death. Hamilton was 30 years old. He had been boxing

# MAN STABBED IN 1919

Deputy Constable, Injured in County, Refused to Tell How He Was Wounded.

William Mitchell, 21 years old, a Deputy Constable of St. Louis Countv. died at Lutheran Hospital yesterday after an operation performed to relieve a condition resulting from a stab wound he suffered in November, 1919. Policemen were told there were no arrests made at the time of the stabbing, as it was never fully

explained. Mitchell was treated at the city hospital after the stabbing, which occurred in the county. He was dis-charged as cured and later internal frouble developed from the wound. Several times relatives had tried to persuade him to be operated upon on the advice of doctors, but he refused until Tuesday, when he was taken to the hospital. The operation was performed ear-

ly yesterday, and he died a few hours

Police were told that at the time of the stabbing, when Mitchell was pressed for an explanation, he re-plied he "didn't know" who had cut DIES AFTER OPERATION plied he "didn't know" who mad him, and said he would not tell if he did know.

How long the "educational camcannot be answered. But it may be said safely that there is not the slightest indication of its being dropped. Mr. Ford is said to have expressed to his intimates the dermination to keep it up indefinit ntil "the people see the truth."
The study and descriptions of New

York Jewry alone will probably take up a good many issues of the Independent. The study has been under way a considerable time, although he writing has not yet been started This undoubtedly will be of the mos ntense sort of interest to all New orkers, Jew or Gentile, for it romised that names will be name and it was indicated to me today that some of the names will be of Jews prominent in finance, in politics, i the theater, in the law and in varous other fields of endeavor. A big New York demand for the Independent is looked for and already ways and means are being considered for filling the call.

The current issue of the paper which is to appear Saturday, con tains an article headed "Jewish Su-premacy in the Motion Picture World," and dates the career of such ell-known film magnates as Adolph Zukor, Oliver Morosco, William Fox, Marcus Loew, Lewis J. Selznick, Carl Laemmie and Jesse Lasky.

View of \$5,000,000 Sult.
The \$5,000,000 libel suit brought against Mr. Ford's paper by Morris Gest, the New York theatrical producer, is not worrying Mr. Ford, he says. It is not against him per-sonally and he will not have to appear in court if it comes to trial. But he doesn't think it will. He says he regards it as a skillful bit of pub-licity put over by Mr. Gest as a boost for Mr. Gest's shows "Mecca"

Mr. Ford is said to believe that New York is now not only the American center of Jewry, but also the world center—that it has "taken the place Warsaw occupied be-fore the war." Therefore it is cer-tain that a lot of attention will be paid to the Jews of the metropolis in the forthcoming articles. All the indications are that Mr. Ford's "educational campaign" will go on and become more vigorous rather than halt or cease.

"The English statement shows a further cut in circulation of 1,200,000 pounds, with a corresponding addition to reserves. The effect of this betterment is partially offset, however, by an increase of 3,100,000 pounds in deposits, so that the improvement in the reserve ratio is comparatively small, the latest figure being 14.6 per cent as against 14.0 last week and 17.4 a year ago. In view of the bank's impaired reserve position and the need for reductions in the cost of living, the continued refusal to accede to clamor for reductions of the bank's payable April 10 on stock of record at the close of business on March 15.

### "Lying Lips" Is My Greatest Picture Thos. H. Ince

"It is first of all a mightly pandual studies, its theme, which is resultive, are not of production, its theme, which is resulting. Its and demands are behind this signed statement that in 'Lying Lips' I have made a modern dramatic spectacle that will go through the ages as a story and production worthy of all those high standards and idealisms for which outsilization of today is striving.

"It is first of all a mightly panorama of human emotions that depicts life and love. Its magnificent settings, its unusual situations, its theme, which is refreshingly distinctive, are interwoven into a colossal production upon which I take pride in stamping my own mark of approval, for in 'Lying Lips' I deliver all that is in me—MY BEST."

### relieves dandruff

Dandruff is one of the most frequent causes of baldness and too much care cannot be exercised in setting rid of it. The Resinol treatment is an easy method. Shampoo with Resinol Soap working the lather well into the roots of the hair. Rinse thoroughly and when wholly dry more and the bair spart and cently rub spread the hair spart and gently rub into the scalp a little Resinol Oint-ment. If carefully done little Ointent will get on the hair. Resinol corp and Ointment at all druggists.

Try This If You Have Dandruff

There is one sure way that never fails to remove dandruff completely and that is to dissolve it. This destroys it entirely. To do this, just get about four ounces of plain ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning, most if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

TO VISITOR AS "SIMPLE BUNGALOW" By the Associated Press.

WASHINGTON, Feb. 17

Washington toda The best "inside story" in Washington today is one of President Wilson's wittlelsms.

Recently the President listened patiently to a man who impressed him as having little intellectual depth. "That man," said the President, "Is a simple bungslow. He has no upper story whatever."

With best wishes for the increasing influence for good of your column. RUTH STEEL.

The Senate passed on yesterday the Fordney tariff bill. putting a tariff, among others, upon wheat entering this country from Canada, a country sending us mighty little wheat and one with which we have a huge trade balance. Don't laugh. The Republicans said they would pull the farmers out of the rut, and they have to make a sublime gesture now and then.

THE GARDEN TRAGEDY. THERE is a pale rose In the garden pressing her wan cheek To the ashen eve. She is loth, Drooped, denying the winds. She is weary of the ardorous sun. She is crushed with the dinning day.

Phantomlike, she sways an instant

And with a tremorous quiver, falls.

There is a pale rose in the garden, No longer nodding, no longer Denying the winds. She hath surrendered Willingly, becoming a foot cloth for Night Who shall weep upon her, leaving Morn But her withering and the tears.

the Birmingham Age-Herald. HE tariff question is not what it used to be, T HE tariff queeton industry is not the same. It is no longer an infant, but needs the world for the marketing of its products. Americans have a better understanding of tariff walls. The emergency tariff now before Congress proposes a tax of 2 cents a pound on meat to protect America from the 1 per cent of imported meat. This is the equivalent of adding 2 cents a pound to the 99 per cent of meat raised in this country. The emergency tariff proposes a tax of 30 cents a bushel on wheat, which will be translated into a higher price for flour in the greatest wheat-producing country in the world. Other propose charges are 10 cents a pound on sugar and \$1 per pair on shoes. The Southern farmer heard the siren voice of the tariff in the name of the oppressed peanut. He has already realized that others are playing that game and that he will pay dearly for what little he gets out of the tariff under the emergency bill. The attitude of the cane growers of Louisiana is easily understood. They would benefit directly from the tariff on a leading industry. The farmer whose crops are diversified occupies quite a different position. The

About all the money stayed here, being spent on war supplies for the allies. The allies got the goods, while the cost was charged up to them by the United States Government. The United States Government paid our citizens, with whom the allies traded, out of the money obtained from taxes and Liberty Bond sales. As the transact now stands, the money of those Americans who paid taxes to the Federal Government and who bought its war bonds was transferred to the pockets of the American producers and manufac of the supplies in question. T is doubtful whether since the Civil War the banking chaos in any American Commonwell ever paralleled what exists in North Dakota to day. Even in the wildcat period of State banks that preceded the Civil War a parallel is hard to find. Sixteen private banks have closed their doors owing to overadvances on wheat, the price of which has gone down. The credit of the North Dakota Bank, backed by the semisocialistic Stat Government, has been attacked. Some Minneapolis banks are mixed up in the muddle. Also the political future of the Townley League is all tangled up with State banking. In direct conti of the North Dakota Bank is the Industrial Board dominated by Gov. ### UNCOMMON SENSE

The Line of the Least Resistance.

By JOHN BLAKE.

REQUENTLY an idea crops up in your mind that seems worth developing. You can't be sure, but it looks valuable. But to run it down means work and a let of it. It means mental work It means taking it up at your first opportunity and thinking it out,

carefully and painstakingly. Now hard work is always easy to avoid. Hard mental work is especially so. And the chances are nine in ten that when you have the leisure to set your mind to work on that shadow of an idea, you either do not think of it at all, or, after a little thought shows you how much trouble it is going to be, you drop it.

It may be, of course, that it would have been a waste of time to bestow hard mental work on that particular idea—as far as the idea itself was concerned. Again it is quite possible that your thought would have resulted in something very valuable to yourself and to

But you followed the line of the least resistance. You dismissed it from your mind because to fellow it to a conclusion was hard work. And some day you will read perhaps that another person who wasn't so afraid of mental labor got the same idea, worked it out, and added something to the world which it needed, and which

It is only the very human instinct of following the line of least resistance, the impelling force that takes human beings, as it takes

Get rid of it. You will not need to work very hard over ideas that are of no value. You will soon be able to discover their worth-lessness. But some of them are sure to be worth working on. There are few of us who do not have them now and then. If you glimpee such a possibility, run it down. The work won't hurt you. And making something out of a single idea may make a

BROWNS

THE HEARTIEST S

CHUCKLE:

#### TOO MUCH

We did not wince or cry aloud (To quote the widely known Invictus) When Mr. Bryan and his crowd Of tipple-haters fought and licked us.
"We're beat," we said, "and that's enough,

There's nothing we can do about it, Although we rather liked the stuff We'll try to get along without it." But these reformers go too far,
At least to our crude way of thinking,
Not only would they ban the bar

And every form of public drinking, But now amid the temperance tribe A propaganda has arisen
To seize all persons who imbibe And lock them up inside a prison.

It gives our nerves a horrid shock To think that many of our neighbors Would thus be sent to breaking rock And doing other penal labors.

One dear, dear, friend—a kindly soul

(We've lectured, chided and harangued bim)— Is so devoted to the bowl They'd never cure him till they hanged him

And that's not all, for now and then We're often tempted toward backsliding. Although, as we assert again, We aim to be quite law abiding. And if there's one thing in this life Which we regard with utter loathing It's parting with our kids and wife
